Summary

Aspiring Data Analyst and AI enthusiast skilled in Python, SQL, Power BI, Tableau, and Machine Learning with hands-on experience in data analysis, visualization, dashboard development, and predictive analytics through internships, projects, and hackathons.

Internships

- Data Analyst & Data Science Intern | Digidara Technologies
Worked on data analysis, visualization, and reporting projects using Python, SQL, Excel, and Power BI. Developed interactive dashboards for Car Sales, EV Sales, Traffic Analysis, and Walmart Sales datasets to generate business insights and KPI reports.
- Data Visualization Intern | Infosys Springboard
Created interactive Tableau dashboards using the ClimateScope dataset and performed data cleaning, visualization, and trend analysis. Generated analytical reports and visual insights to support data-driven understanding.

Accomplishments

- CivilD | React.js, Spring Boot, MySQL
Developed a full-stack platform for managing civil engineering projects, site tracking, and customer interactions.
- ATS Resume Analyzer | Python, AWS S3, ML
Built an AI-powered system to analyze resumes and predict ATS scores using machine learning.
- BI Dashboards | Power BI, Tableau
Created interactive dashboards for sales, traffic, and analytics datasets to generate business insights and KPI reports.
- Walmart Sales Forecasting & Customer Segmentation | ML, Power BI
Developed ML models for sales prediction and customer segmentation using retail datasets.
- Helpdesk Management System | React.js
Designed a role-based helpdesk platform for managing internal support tickets and workflow communication.
- Children Library Management System | Spring Boot, MySQL
Developed backend modules for managing books, members, and issue-return operations.
- UIDAI Hackathon | Python
Performed data analysis and visualization on Aadhaar biometric update datasets to identify operational trends.
- AI Work Simulation Platform | LinkedIn Hackathon
Developed an AI-driven workplace simulation platform for automating professional tasks and workflows.

Education

BBachelor of Technology (B.Tech) – CSBS
2024-2028
Sri Krishna College of Engineering & Technology,
Coimbatore.

Hackathons

- Finalist – Uyir Road Safety Hackathon(2025)
- Participant – SIH 2026 (INGRES Chatbot development)
- Participant – LinkedIn Hackathon(2026)
- Participant – Infosys Springboard iAccelerate Women(2025)
Hackathon - Proposed a two-way medicine display system.

Technical Skills

Python,, Java, C++, SQL, Power BI, Tableau, Excel | NumPy, Pandas, Scikit-learn | ML, AWS | React.js, Spring Boot,HTML,CSS

Certification

- Professional Certification in Artificial Intelligence & Data Science – Indian Institute of Technology Indore, Drishti CPS
- Forge Job Simulations – Data Analytics, Data Science & Data Visualization (Deloitte, British Airways, TCS)
- Google Project Management Professional Certificate
- Data Visualization with Tableau – University of California, Davis
- IBM : Generative AI – Prompt Engineering Basics | Introduction to Cloud Computing
- Fundamentals of Database Systems – Coursera
- Computer Hardware and Software – University of California, Irvine
- NPTEL – Soft Skills | Python for Data Science
